Bob,

Will you similarly share with WDNR?

Kristen,

Here is the draft work plan. Please review as soon as you can. I will need to get comments back to BERS this week.

Since the cross sections are not yet completed, I view the soil boring locations as changeable based on further review. For the VI samples, they have included all the locations, but we may remove some of those.

It might be easiest to have a call so we can both discuss any comments before they are sent. Once you have a chance to look at the document, let me know what days/times are good for you.

Thanks you.

Bob
